During this internship, i learned about basic of django framework. Django framework is most widely used mvt framework which is useful in designing restful api.

---

## **Professional Training**

05-2020 - 05-2020

### **Devops from Linux World**

A 80 hour training that covers Jenkins integration with git, testing framework- Pytest, maven, docker, kubernetes with metrics, monitoring using prometheus and grafana, log management by elk.

During this training I have done multiple real world based tasks/ minor projects which has enhanced my learning to many folds.

06-2022 - 07-2022

## Python Summer Training from E & ICT Academy , IIT Kanpur

It was a online training that cover bits from basic to advance level. During this training i have learned about python basic, classes in python, magical method, data type etc. I also done two project during this course, one was basic library management i which i integrated mysql database with my python application.

---

### Projects

#### Web-Ops

A website built using html , css and javascript has been deployed using devops tools. This gives extra power to website. The complete pipeline designed using jenkins. As soon as code is pushed to the github , jenkins job automatically clone and launch the docker container and deploy the code over it. In this project, i have used tools like git, github, jenkins, docker, apache server.

This project was a standalone project in which i developed end to end things.

#### BMI Calculator App

A minor project that i built during my acedmic. It was an android app built on the top of android 5. Basic interface with two input fields for entering weight and height. Once user click on claculate button, their bmi gets calculated and displayed along with some suggestions to improve their bmi.

---

### Educations

College/school	University/Board	Degree/Standard	Passing Date	Percentage/Pointer
Katihar Engineering College	AKU	BTech	Present	
N P Inter College	BSEB	12th	2018	54.2
Subhash Chandra Bose	CBSE	10th	2016	95

---

### Professional Certificates

DevOps (linux world , by Vimal Daga)

---

## **Personal Information**

<b>Date Of Birth</b>	31-03-2000
